

CAD launches 999 Accounting Software, to honour His Majesty the King

(From Siam Rath Newspaper, Section: Local Politics/Cooperatives, Thursday 3rd February 2011.)

The Cooperative Auditing Department(CAD) launches the project “999 Accounting Software. 999 goodness for the King” on the Auspicious Occasion of the 7th Cycle Birthday Anniversary of His Majesty the King, 5th Dec 2011, hoping to improve the standard of cooperatives’ accounting system to provide service with quality to members and to build transparency in the cooperative system.

CAD: Mr. Singthong Chinnawornrunsee, CAD Director-General, reveals that, on the Auspicious Occasion of the 7th Cycle Birthday Anniversary of His Majesty The King, 5th Dec 2011, CAD has organized the project “999 Accounting Software, “999 Goodness for the King””, so that cooperatives have instruments for strengthening accountancy by promoting and pushing cooperatives to use the cooperative Full Pack

Accounting Software for cooperative development purpose. And also, cooperatives and their members will have a chance to honour His Majesty the King. The Objective of this project is to promote Thai cooperatives in using the Cooperative Full Pack Accounting Software efficiently. The Target of this project is the number of 999 Thai cooperatives of all kinds throughout the country, commencing implementing from February-August 2011.

CAD Director-General, also states that, CAD would like to invite Thai cooperatives to participate in this project to join hands in doing good things in order that Thai cooperatives will be developed as an organization of Standard Information System with transparency and audibility. Therefore, participating in this project, cooperatives' members will not only be proud of being a part of this auspicious occasion, but cooperatives themselves are also believed to have enormous utility concerning modern information system with fast service and confidence of their members.

“...This is the project that CAD, collaborated with cooperatives have created many good things to exist in our cooperative system: Thai cooperatives will have a good tool to use. The cooperative Full Pack Accounting Software can help control conducting to be sustainably transparent and strong. That will make auditors spend less time in auditing by using this accounting software with the cooperatives joining the project. As a result, members of cooperatives will receive their dividends, including average amount returned very fast. These are the wonderful things which these both parties jointly do for our beloved king...” said Mr. Singthong.
